Developing the
Winning Approach

Business Development

- The most important factor in winning is COMMITMENT— eating, sleeping, thinking, breathing, winning the opportunity

- Winning isn't everything, it's the only thing!

- Compliance is a necessary *but not sufficient* condition for winning

- Assume one or more of our competitors is really good

- On a given opportunity, there are a few ways to win, and a few thousand ways to lose—it's easy to find the ways to lose

- Transactions are personal— people buy from people

- We are not competing against the RFP

Small Business vs. Large Business Environments

Small Business Procurements
(Set asides, GWACs)
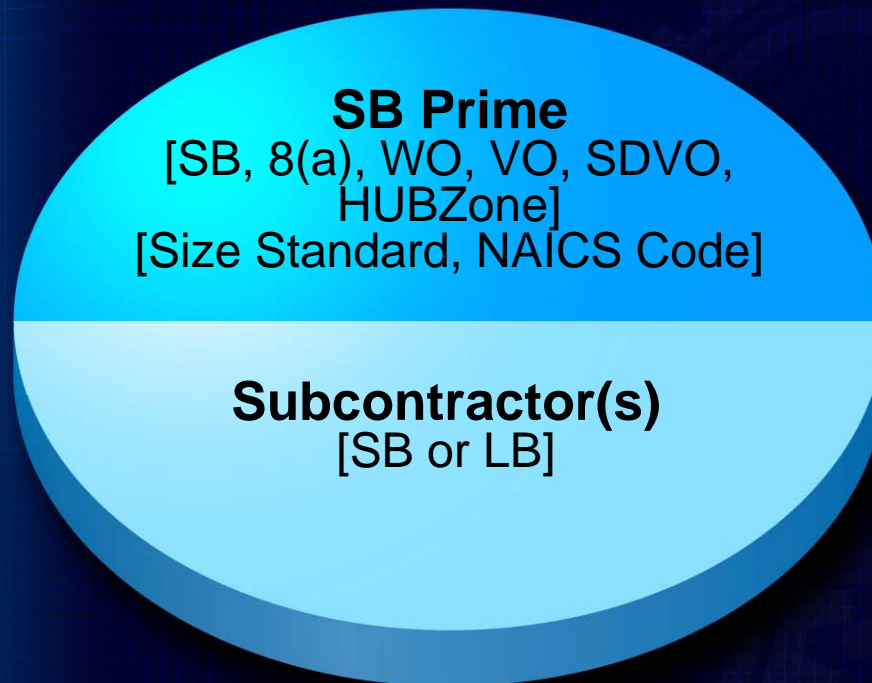

Large Business Procurements
(Full & Open, GWACs)

SB Prime
[SB, 8(a), WO, VO, SDVO, HUBZone]
[Size Standard, NAICS Code]

Subcontractor(s)
[SB or LB]

Prime
[Usually LB]

SB Subcontracting Requirement
[Minimum Labor Workshare]
[SB Type(s), Size Standard, NAICS Code]

Value-added Subcontractor
[SB or LB]
We must prepare for, and win in, the LB World!

Sensitivity to OCIO and Program Offices

029

Fine threads in the storyline

Identification [Milestone 0]

- Identification sources
  - Commercial services [e.g., Input, FedSources, etc.]
  - Government Web sites [e.g., FedBizOps, Agency Procurement Web Sites, etc.]
  - GWAC program offices [e.g., COMMITS, ITOP II, NIH CIOSP 2]
  - Networking

- Identification step goals/exit criteria
  - (1) Is the opportunity real?
  - (2a) Why should you pursue this opportunity?
  - (2b) What is the opportunity's strategic value to you?
  - (2c) What is the business case for this opportunity?
- Must complete at least 9 months prior RFP release

Qualification—10,000-Foot View

- Must pass qualification step at least 6 months prior to RFP/RFS release!
  - Capture Team needs time—winning <u>does not</u> happen overnight
- Solid, unbiased qualification key to winning
  - Note qualification milestone skipped all too often
- Qualification goals/exit criteria
  1. Validate you can win opportunity
  2. Business case—demonstrate opportunity warrants (potentially) bidding
  3. Gather customer intelligence—build customer relationship
  4. "Jump start" Capture Team
- You MUST VISIT CUSTOMER to recommend passing qualification milestone

Developing the Winning Approach

- It's all about winning:

  *Winner is the Prime, as evaluated by the customer, whose approach (proposal) is **demonstrably different** and **superior** when **evaluated** against **stated** and **unstated criteria***

- Questions:

  1. Who is the customer?
 2. What are unstated criteria?

Qualification—Who Is the Customer?

You need to know/influence/be loved by:

- SSA (Source Selection Authority)
- SEB (Source Evaluation Board)
  - CO/COTR
- Key decision makers who can/will influence SSA/SEB
  - E.g.: CIO, Department/Agency/Center Director, CFO, Procurement Director
- Key stakeholders
  - E.g.: Task Monitors/Branch Chiefs who drive contract requirements or manage contract tasks
- Bottom line: Map opportunity to customer organization

You must sell to the right customer reps to win!

Forms basis of call plan

064v2

Qualification—What Does the Customer Really Want?

Examples—Specifics Depend on Opportunity

Management Approach
- Performance based?
- Do they like incumbent (company vs. staff)?
- Benefits important? Enough to pay more for better benefits?

Key Personnel
- PM qualifications? Like current PM?
- Key personnel qualifications? Like current key personnel?
- Diversity important?

Staffing Plan
- 100% incumbent capture? If not, who do they not like?
- Known staffing plan or MEO?
- Recruiting and retention important?

Technical Approach
- Status Quo? Innovations?
- COTS packages liked/disliked?
- Processes?

Phase-In
- Most important?
- Special considerations?

Cost
- Best value?
- #1 consideration?

Competition/Potential Teammates
- Prefer large business or small business?
- Prefer local companies?
- Who do they like?
- Who do they not like?

Risk Management
- Important?
- Particular risks?

**Your job is to help the customer know what they want!**

Business Development

Developing the Winning Approach

Call Plans—Customer Calls

Business Development

- Bid Decision
- Win Strategy
- Solution Development
- Proposal Development
- Proposal Directive

Customer Intelligence

Call Plan

Pre-Visit Preparation

- Schedule Visit
- Determine Visit Team Members (How Many, Company, Specific Visitors)
- Prepare Visit Form
  – Messages to Deliver
  – Data to Gather and Priorities
  – Top 5 Issues
  – Hot Buttons
  – Top 3 Things They'd Do (Management, Technical, Staff)
- Strategize Visit
  – Roles
  – Who/How to Deliver Messages
  – Who/How to Ask Questions
  – Sequence of Events

Conducting the Visit

- Be on Time!
- Dress Appropriately
- Execute Visit Plan
- Listen!!
  – Minimize Talking!
  – Maximize Listening!
- Keep Focus on Customer
  – Watch Those Non-Verbals!
- Take Notes (Without Impacting info Flow)

Post-Visit Follow up

- Write Down Notes ASAP!
- Address Implications to Planned Solution
- Prepare Visit Report Within 7 Days
- Note When to Schedule Follow-up Visit

Critical to Accurately Capturing Customer Intelligence

Critical to Solution and Proposal Development

056

Accurate customer intelligence is essential to winning!
Business Development

- Verifying opportunity is real
- Influencing the acquisition (strategy, schedule, RFP specifics, etc.)
- Solid, unbiased lead qualification
- Know the customer better than anyone else (buying habits, likes, dislikes, etc.)
- Bottom line: Successful Business Development validates:

1. Opportunity has sufficient business case
2. You can win opportunity

067

Win Strategy Checklist

Capture Management

1. **Image Strategies** - Who must we be to win?

2. **Commitment Strategies** - What must we do To guarantee our winning commitment?

3. **Team Strategies** - Whom must we assemble and how?

4. **Organization Strategies** - How must we be organized to win?

5. **Approach ("How To") Strategies** - What must we specifically describe and offer to win?

6. **Performance Strategies** - How must we perform and manage the approach?

7. **Price Strategies** - What price must we have to win?

8. **Experience and Capability Strategies** - What must we have done to win that is relevant and beneficial to this customer and this procurement/requirements?
Capture Management

9. **Past Performance Strategies** - How well must we have historically performed for this customer and others to win?

10. **Key Personnel** - What personnel with what qualifications must be identified to the customer by name and resume to win?

11. **Discriminators** - What are our win themes/ Discriminators? *[Only the Customer defines a Discriminator (perception counts!). **A UNIQUE** benefit is one that meets or exceeds conformed customer expectations, and which our competitors are not likely to offer. The benefit must distinguish your team from the competitors. Ideally, discriminators will be concrete and quantifiable benefits rather than fuzzy, intangible benefits. Themes should be easy to understand, provide high perceived value, be easy to quantify, and be easy to remember.]*

# Key Personnel

- Known and respected by client
- Related current/recent experience
- Tech and management skills
- Education
- Training
- Certifications
- Security clearances
- Current employee
- Published
- Available

- Committed to program
- Work experience with proposed management team
- Sincere/trustworthy
- Linked to approaches, experience, performance and examples

Organization and Staffing

- Along with key personnel, organization and staffing form the heart of a services bid—these elements:
  - Directly impact all other sections or volumes
  - Establish performance credibility
  - Are the primary cost drivers
- Organization must be customer-facing
- Key interfaces must be properly defined
- Succession planning is important
- Staff refresh—begins with phase-in and never stops
- Skill sets must include requisite training and certifications
- Accurate job descriptions convey mission understanding

Past Performance

- Direct mission relevance
  - Recent/current
  - Valid
- Depth and breadth of experience
- Why successful
- Focus on partnership
- Instill confidence for proposed solution
- Performance records
  - Offeror
  - Subs
  - Citations
  - Awards
  - References
  - Special achievements
  - Award fee scores
  - CPARS

Technical Approach

- Establish/reinforce credibility
  - Show unmatched mission and task understanding
  - Provide performance examples
  - Leverage past performance volume
  - Highlight related management team accomplishments
- Identify critical success factors
- Focus on approach on who, when, how, where, what, why

Cost

- Realistic and reasonable
  - Skill mix (balanced/greening)
  - Salaries and compensation (TCP) structure
  - Escalations (based on accepted source)
  - ODCs (sources)
  - Productive work year
  - Defendable rates (salary)
  - Lapse/vacancy rate
- Loading/wrap rates including documented history and explanation of out-year changes
  - G&A
  - Overhead
  - Handling
  - Fee
 - Fringe

In Summary

Valuable Lessons Learned

- You cannot skip steps
- You must do a thorough job at each step
- The first steps are usually the most critical
- The data from each step must be properly integrated and leveraged to be useful
- There is no free lunch. However, spending more money does not guarantee a win
- Even when you do everything "right" someone else can come up with the "right answer"

On the critical path

Function of a Proposal

the winning approach section

The function of a proposal is to sell both the technical and managerial capabilities of your company to accomplish all required activities on time and at a reasonable cost.

Proposals are Deliverable Products

- Because you obtain new business via proposals, they represent your most important product.

- Every proposal you submit must be your finest effort. Proposals reflect directly upon your company.

- Proposals must be internally consistent and written uniformly.

Proposal Development

409

35

Proposals are Deliverable Products

Proposal Development

- Proposals represent the final exam of your business acquisition process
  - You are scored, literally, on your Technical and Management Approach, Past Performance and Relevant Experience, Staffing, and Price

410

Proposals are – first and foremost – sales documents

36

Your Proposal Must Answer the Question—

Proposal Development

Developing the Winning Approach

Why you?

And why *NOT* your competition?

Proposal Development

Letting Your
Customers
See
Themselves
in Your
Proposals

143v5

Trigger Point:
Request for Proposal (RFP)

- Solicitation document issued by the customer to obtain offers from contractors/suppliers that propose to provide products or services under a contract to be awarded using the process of competitive bidding and negotiation

- For US government work, essentially the same in terms of their major sections as a result of the Uniform Contract Format (FAR Subpart 15.406-1)

  - Beginning in 1984, the Federal Acquisition Regulations (FAR) established uniform policies and procedures by all Federal executive agencies
411

Major Sections of the RFP

- ## Section C:
  - Description, Specifications, and Work Statement
- ## Section L:
  - Instructions, Conditions, and Notices to Offerors
- ## Section M:
  - Evaluation Factors for Awards

412

Proposal Development

- Section C:
  - Headings and Subheadings for Proposal Text
- Section L:
  - Provides Specific Instructions for Preparing and Structuring the Proposal Document: Margins, Font Families, Number of Foldout Pages Allowed, Page Limits, Double-sided Copying Requirements
  - Outline and Sectional Numbering Conventions
- Section M:
  - Criteria for Evaluation
  - Guide for Page Allocations

Fine threads in the storyline

48

Developing the Winning Approach

Proposal Development

Rick Stalnaker—*Making a Difference on the Current Program*

Mr. Stalnaker has:

➤ Since his first day on PACE I, enhanced communication and trust among all member companies of **TEAM RSIS**. The result has been greater productivity, team harmony, and increased employee morale. In effect, an IPT that <u>works</u> everyday.

➤ Expanded the cross-utilization of personnel to support new projects and IFM and legacy systems.

➤ Personally helped draft proposals to the NASA Headquarters (HQ) CIO to procure funding for advanced collaborative tools.

➤ Added flexibility to the IGI teaming arrangement that allowed **TEAM RSIS** to provide additional world-class telecommunication experts to support advanced networking.

➤ Helped to build the PACE IT Security Program Office, which focuses on lab-wide cybersecurity policy.

➤ Provided leadership to integrate LiveLink across multiple NASA and GRC functional areas. Efforts were targeted to enhance the LiveLink system reliability and customer satisfaction.

➤ Assumed personal responsibility for facility support management. Laid groundwork for new process-driven methodologies. Hired and brought in a dedicated manager to focus on facility support management at no direct cost to GRC.

➤ Attends all PACE Safety Council meetings and plays an active role in meetings and activities. Reviews the agenda and minutes, ensures participation and provides resources needed to accomplish goals. Ensures recognition for contributions to the Safety Program.

090

Selling Your Contractual Experience—Project Summaries

Proposal Development

- Update Your Project Summaries Every Quarter
- Focus on the Following:
  - How You Are Aligned with the Customer's Mission
  - Customer Satisfaction Metrics
  - Customer Commendations
  - Award Fees
  - CPARs
  - Use of New Technologies/Tools
  - Implementation of New Management Processes
  - Application of ISO 9001:2000 and SEI CMM Structured Processes
  - Cost Savings to the Customer
  - Risk Mitigation Approaches that Worked
  - How You Have Linked Your Customer's IT Assets with Their Business Processes
  - On-time Rate of Deliverables
  - Quality Rating for Deliverables
  - Number of Users Served
  - Number and Percentage of Help Desk Calls Resolved on the First Call
  - Average Time to Fill Open Position Requisitions
  - Employee Retention Rates
  - Community Outreach Programs
  - Use of College and High School Interns
  - Alliances with Local Colleges and Universities
  - Mentor-Protégé Programs
- Ensure that customer POCs are accurate and up-to-date

"RSIS has provided superior level of service to the Radar Operations Center (ROC). They have been very responsive to customer needs. The work force is of the highest quality and very innovative in all aspects of their ROC support. One significant strength is their ability to listen to the customer and anticipate customer needs."

—James Belville, Director, NEXRAD ROC RSIS Performance Assessment Letter

Capture and leverage transferable knowledge

ISO-Driven Review Process Results in Excellent End-Products

ISO References: QOP-63-01, WI 63-01-BD-07

Reviews focus on:
- Overall credibility, appropriateness, soundness, and clarity
- Alignment of fact-based storyline with customer requirements and mission
- Responsiveness to customer regulations, policies, and practices
- Compliance, completeness, and adequacy of our responses to the solicitation

Blue Team (no narrative at this stage)
- Audit proposal architecture (includes outline at the main heading and subheading level)
- Review storyboards and storylines
- Assess Win Themes and the entire solution framework

Pink Team (narrative and graphics)
- Assess that the solution framework has been driven into the proposal volumes

Red Team (narrative and graphics)
- Evaluate from the Source Evaluation Board's vantage
- Evaluate from the customer's and stakeholders' perspectives
- Verify compliance with RFP/RFS
- Assess from competitors' perspectives
- Ensure that win strategies have been incorporated end-to-end
- Ensure that technical and management innovations have been built in

Gold Team (fully integrated documents)
- Executive-level final review.
- Critical Questions: Did you make the sale? Have you convinced the customer that your company is the best-value solution?

Proposal Development
Writing Guidelines and Techniques

Developing the Winning Approach

- Narrative must contribute to the customer's rapid comprehension of your qualifications and approach
- Formulate ideas precisely and simply
- Guide the evaluators through your writing
 - Use subheadings frequently
  - Build in graphical roadmaps

Writing Guidelines and Techniques

- Use the *active voice*

- <u>SAY what you mean in simple English</u>

- Keep sentences short
  - Avoid the 85-word sentence
  - Target: <25 words

- Identify tangible benefits of your technical and management approach to the customer
